

The Division of Cardiothoracic Surgery in the Department of Surgery at the University of Mississippi in Jackson, MS invites applications and nominations for the position of director of general thoracic surgery. Prospective candidates must possess an MD degree and be American Board of Thoracic Surgery certified or eligible as of July 1, 2010. The ideal candidate will be well versed in all aspects of general thoracic surgery and will have demonstrated potential in clinical care and research as well as a commitment to teaching. Several years of experience is preferred, but current trainees and recent graduates will also be considered. Practice locations include the University of Mississippi Medical Center and the adjacent Department of Veterans Affairs Medical Center.

Applicants should submit a curriculum vitae, cover letter, and references to:

Walter H. Merrill, MD
Chief, Division of Cardiothoracic Surgery
