

Assistant Professor at University of Pennsylvania

The Division of Thoracic Surgery at the Perelman School of Medicine at the University of Pennsylvania (Philadelphia, PA) seeks candidates for an Assistant Professor. More senior applicants are welcome to apply. Applicants must have an M.D and/or Ph.D or equivalent degree.

The primary clinical responsibility will be participating in the lung transplant program. Teaching responsibilities may include instruction of medical students and surgical residents. Research or scholarship responsibilities may include clinical and / or basic science research on topics in the field of lung transplantation.

Based on the interest of the applicant, additional work can include other aspect of thoracic surgery including pulmonary and esophageal diseases. Candidates versatile with ECMO will be strongly considered as well.

This is an exceptional opportunity to join one of the oldest Divisions in Thoracic Surgery in the US. The successful candidate will be involved at the core teaching hospital, the Hospital of the University of Pennsylvania. This program works directly with the Penn Transplant Institute and a multidisciplinary team of renowned transplant surgeons, pulmonologists, and support.

Please email Sunil Singhal (sunil.singhal@pennmedicine.upenn.edu) and Mauer Biscotti (mauer.biscotti@pennmedicine.upenn.edu) your cover letter and CV.
